Slim, ergonomic design for surgeon comfort

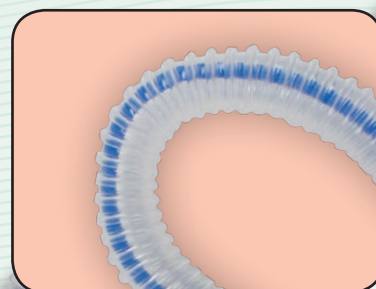

Captures smoke right at the source

Telescopic nose provides flexibility in tip length

E-Z Clean[®] non-stick tip reduces eschar buildup

NEW

Integrated cord in tubing

DID YOU KNOW...

Studies show that inhaling the smoke plume created by burning just one gram of tissue (using electrosurgery) is equivalent to smoking 6 unfiltered cigarettes?¹

¹Tomita et al, 1989 ²Perioperative Standards and Recommended Practices (Jun 2009)

AORN'S RECOMMENDED PRACTICES² STATE:

- » "Smoke plume should be removed by use of a Smoke Evacuation System."
- » "Experts have noted that there may be more than 600 chemical compounds that exist in surgical smoke."
- » "...these contaminants have been shown to have mutagenic and carcinogenic potential."

Ignoring this recommendation could put you and your OR staff at risk.
